MEMORANDUM FOR: Deputy Director (Plans)

SUBJECT: 1959 Spring Meeting of the Optical Society of America

1. The subject meeting will be held on April 2-4, 1959 at the Hotel New Yorker, New York, New York, and offers a most interesting agenda as you will note from the enclosed copy of the Meeting Calendar. It is my intention to have one or two PIC personnel cover those sessions of greatest interest to us.

2. I call this meeting to your attention as a facet of our effort to obtain some over all view of current research and development activities which might have significant application to CIA problems. You are of course aware of the meetings which Mr. Lanphire has invited to further coordinate our knowledge and affirm our interests in the R & D field.

3. It would seem that TSS might have interests in the subject meetings as well as OSI and by separate copies of this memorandum and the Meeting Calendar I would post them on the schedule and our interest in it.
